

Lunchbuffet

A bit of love and care are key ingredients to the lunch buffet. Our chefs prepare fresh and varied food every single day. With attention to flavour, locality and people.

Homemade and full of flavour

Our lunch buffet provides a range of different sandwiches, fresh salads and a choice of hot dishes. All prepared in our on site kitchen and using seasonal vegetables.

Local, organic & sustainable

Our planet and the animals and people on it matter to us. Therefore we use:

- various organic produce
- certified meat products to prevent animal cruelty
- vegan options to reduce our footprint
- all our ingredients to the fullest with minimum waste

Inclusion & hospitality

Food brings people together. The staff at Aristo therefore take all our guests preferences, cultural backgrounds and dietary requirements seriously. We provide each guest with plenty of options, meat lover and vegan alike. Our chefs are happy to cater to your needs. Each month we serve our sandwich of the month. Inspired by the personal stories and different cuisines of our staff.

Lunch buffet

Sandwiches

First thing we do in the morning is bake our selection of breads in the oven. We have ample choice of (open) sandwiches and mini-rolls. You can create your own choosing from a selection of cheeses, cured meats and fresh vegetables. Do you prefer a spread? Why not choose Nutella, jam, honey or peanut butter.

Salads and toppings

Every day we serve up various different kinds of salads and greens. Top up your salad with 6 toppings such as bacon bits, Parmezan cheese, crispy onion or fresh herbs.

Fresh soup and hot dishes

Aristo serveert elke dag een andere verse soep met knapperige soepstengels en verse toppings. Daarnaast vind je een selectie warme gerechten met vlees of vis en vegetarische of vegan opties met daarbij een passende rijst, pasta of aardappelgarnituur.

Fruit and sweets

The lunch buffet always includes Fair Trade bananas, organic apples and pears and seasonal fruit such as kiwi, melon or peaches. We provide a (vegan) yoghurtbar with granola, nuts and chocolate toppings. Big sweettooth? Our apple pie, muffins, brownies, shoe buns and mini donuts are hard to resist.

Beverages

Wash it all down with a glass of fruit juice, organic milk or buttermilk or flavoured milk.
