Social Return on Investment

Social return on investment

A meeting at Aristo is more than just a great venue. For Aristo, SROI means investing in people's development, collaborating with social and local partners and suppliers, and creating a work environment where everyone feels welcome. By doing so, we strive to do our part for people and society.

What does it mean to you?

When you organize a meeting at Aristo you get to:

- ✓ Partner up with a socially responsible partner.
- ✓ Help people find their way at the job market by allowing us to provide opportunities.
- ✓ Choose an inclusive and sustainable location.
- ✓ Combine quality and social worth

All this supports your own SROI goals

Would you like to learn more about our social impact and sustainability approach? Contact Naomi, Project, Quality & Sustainability Coordinator.
We'd love to tell you more!

What we do

Apprenticeship and development

- We provide room for apprentices to gain work experience.
- Partner to JINC, by showing students around the workplace.

We allow students to gain experience and to improve their position on the job market.

Socially responsible

- Partnerships with socially responsible suppliers.
- Produce that makes a difference.
- Sustainable choices when it comes to buying.

Positive impact from within.

Diversity and inclusivity

- Recruitment based on skills and competence.
- Een deel van het team heeft een afstand tot de arbeidsmarkt.
- A team of coworkers of over 11 different nationalities.
- Allowing space and time to volunteer at your chosen cause.

We contribute to equal opportunity, social awareness and acces to the job market.

Social responsibility

- All locations hold a Green Key Gold certificate
- A very engaged Sustainability Team Aristo.

Sustainability is part of our operations.

Some examples

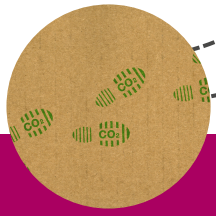

Stagepact MBO - SBB

We are a partner to Stagepact MBO which helps promote quality apprenticeships. As a certified workplace we help vocational students reach their potential.

Buying sustainably

Our policy when it comes to buying, the use of renewable energy and certified products all contribute to making responsible and sustainable choices.

Suppliers with impact

By partnering up with social supliers such as Koeckebackers, Gro together, Diversey and de beste EHBO-doos, we make choices that make a positive impact on society.

Social commitment

By providing space and time to our employees to volunteer to their chosen causes and our partnership with ALS Nederland we stimulate our staff to contribute to society.

JINC partnership

We help kids develop skills they can use in future jobs by showing what we do everyday and help prepare for job interviews.

A more inclusive F&B

We provide largely plant based F&B options and use local produce. We also developed our own AristoTap to be able to cater to our guests wishes and lower our impact on the environment .
